

The panelists represented a diverse set of diagnostic industry participants who discussed the opportunities and challenges in the diagnostic ecosystem. TCHF representative, Visalakshi spoke about the Fund's experience in investing in two diagnostic assets Anderson Diagnostics and Atulya Healthcare which are the traditional integrated regional diagnostics chains, one catering in the northern region and another in South India. She also highlighted the Fund's investment in AI enabled radiology imaging company, Deeptek thus highlighting the complete spectrum of TCHF's diagnostic investments.
